TECHNICAL SKILLS

Languages: PHP, Java, JavaScript, TypeScript, HTML5, CSS3
Frameworks & Libraries: Laravel, CodeIgniter (HMVC), Spring Boot, React.js, Material-UI
Databases: MySQL, Database Design, Query Optimization
APIs & Architecture: REST APIs, SOAP APIs, MVC, RBAC, Two-Factor Authentication, SaaS, CRM, ERP, HRMS, WebSockets
Tools & Platforms: Git, GitHub, Linux, Docker, Postman, Agile/Scrum
AI & Integrations: OpenAI API, Prompt Engineering

SUMMARY

- Full Stack Developer with 2.8+ years of experience building scalable SaaS, product-based, and service-based web applications using Laravel, CodeIgniter, React, TypeScript, and MySQL. Experienced in developing CRM, ERP, HRMS, and examination systems with expertise in REST APIs, RBAC, authentication, WebSockets, and payment gateway integration. Passionate about building secure, high-performance, and scalable applications.

EXPERIENCE

Software Developer | Webverse IT

Jan 2026 – Present

CodeIgniter, HMVC, REST APIs, MySQL, CRM

Noida, India

- Developed and maintained service-based full-stack applications using **CodeIgniter HMVC** architecture for enterprise clients.
- Built **REST APIs**, integrated third-party/client APIs, and optimized **MySQL** queries to improve application performance and scalability.
- Worked on **CRM** and market research platforms, collaborating with cross-functional teams to deliver customized business solutions.

Software Developer | Pioneering The Future

Oct 2023 – Jan 2026

Laravel, React.js, TypeScript, REST APIs, SaaS

Noida, India

- Developed scalable **SaaS** applications using **Laravel**, **React.js**, and RESTful APIs for the BlinkExam platform.
- Implemented enterprise security features including **RBAC** and **Two-Factor Authentication**, and migrated legacy SOAP services to REST APIs.
- Built **ERP** and **HRMS** modules while automating backend workflows, reducing manual effort by **40%** in an Agile development environment.

PROJECTS

BlinkExam Platform | Laravel, React.js, TypeScript, REST APIs, RBAC

- Developed and enhanced SaaS-based examination platform modules for Admin and Candidate Panels.
- Built scalable **Laravel APIs** for examination workflows, candidate management, and assessment systems.
- Migrated legacy **SOAP** services to **REST APIs** with backward compatibility and implemented queue-based processing.
- Built reusable email template systems for transactional communication and notifications.

Proctoring & Invigilation System | WebSockets, RBAC, Real-time Monitoring

- Built real-time monitoring system using **WebSockets** for live candidate tracking during examinations.
- Implemented role-based dynamic panels for Proctor and Invigilator using a single repo with rule-based access.
- Reduced response latency by **50%** and significantly improved monitoring efficiency.

HRMS Panel | Spring Boot, React.js, TypeScript, MySQL, REST APIs

- Developed HRMS modules for employee management, attendance, leave tracking, and payroll workflows.
- Built **REST APIs** using **Spring Boot** and created responsive frontend components using React and TypeScript.
- Implemented **RBAC** and authentication for HR/Admin users; optimized MySQL queries for large employee datasets.

SuperAdmin Panel | Laravel, RBAC, Two-Factor Authentication

- Developed secure admin system with **RBAC** and **Two-Factor Authentication** for platform-level management.
- Built scalable dashboards and system-level controls, improving auditability and operational control.

EDUCATION

Bachelor of Science in Computer Science (B.Sc.)

2020

D.A.V PG College

Muzaffarnagar, U.P.
